the weight, however, if an ateimpt is made to bring them together. Neison already insists that Gardner shall do already insists that Gardner shall do 133 pounds if he wants to get his game. Gardner can hardly do better than 135 pounds at 3 o'clock the day of the fight and be right himself. The match between the pair would hardly take place for six months, as the Dane proposes to remain on the road all winter with theatrical shows.

atrical shows.

The general opinion of wise sporting men here is that Britt's work in his fight with Nelson was below his usual standard. He was reckless and tried to beat Nelson at his own game. It was noticed after a few rounds had been fought that there were hig blue blotches on Britt's back. It looked like the back of a man who had been in the bay for a long time and had just been rescued from drowning. The same thing was noticed on Nelson's back, but only for a short time. With Britt if remained on his neck and back from the fourth round until the end. A physician, who on his neck and back from the fourth round until the end. A physician, who noticed it, says that the discoloration was caused by the overtaxing of the heart. He deciares that the bluish appearance could only be caused by the fallure of the heart to beat normally, "Britt made mistakes in training," he said. "He overtaxed himself. He took too many dips in the surf, for surf bathing weakens the heart. He boxed in a close gymnasium, crowded with people. He trained at the beach, where the atmospheric pressure is low. He should

mospheric pressure is low. He should have trained in the mountains. Over-training lost him the fight." Nelson was around town yesterday with his friends. One of his eyes is partly closed and very black, while his nose and face are considerably swollen and bruised. The bridge of Britt's nose is cut and his lips are puffed up.

63 Cottage St., Melrose, Mass.
January 11, 1904.

Dear Sir: "Ever since I was in the army, I had more or less kidney trouble, and within the past year it became so severe and complicated that I suffered everything and was much alarmed—my strength and power was fast leaving me. I saw an advertisement of Swamp-Root and wrote asking for advice. I began the use of the medicine and noted a decided improvement after taking Swamp-Root only a short time.

I continued its use and am thankful to say that I am entirely cured and strong. In order to be very sure about this, I had a doctor examine some of my water today and he pronounced it all right and in splendid condition.

I know that your Swamp-Root is now that your Swamp-Root is proved to the surface of the medicine and noted a decided improvement after taking swamp-Root only a short time.

I continued its use and am thankful to say that I am entirely cured and strong. In order to be very sure about this, I had a doctor examine some of the medicine and noted a decided improvement after taking swamp-Root only a short time.

I continued its use and am thankful to say that I am entirely cured and strong. In order to be very sure about this, I had a doctor examine some of the medicine and noted a decided improvement after taking swamp-Root only a short time.

Trainer.

Chicago, Sept. 13.—The News says:

"As we look back a few years over the field of great running horses that have come and gone we wonder why it is that so many of them have gone wrong, while among the harness horses we have a few of them breaking down and in fact seem to live practically forever," said an old time trainer at the local track recently. local track recently.
"The list of runners, if one could think of them all, is large, while I

local track recently.

The list of runners, if one could think of them all, is large, while I know of few trotters and pacers that have dropped out of existence except from old age. Some of the greatest race horses I have known have broken down in their three-year-old form and others in their four and five year old career, while the harness horses just begin to get good along about the time they are 6, 7 and 8 years old.

Thave often wondered if horses would live longer and race better if they were not raced so hard or in fact at all as 2 and 3 year olds, but allowed to grow and become stronger in their on the turf. In these days such large purses like the Futurity and various Derbys are offered for 2-year-olds and 3-year-olds that breeders of thoroughbreds feel compelled to race for their fortunes alone regardless of what becomes of the horse. After such an eventful career as that of Sysonby, who has won nearly \$200,000 and is yet only a 3-year-old and bids fair to displace Domino as the greatest money maker ever known, it would be impossible to convince any horse owner that it is wrong to race a colt when he is growing. Sysonby, however, is one of the few which has stood the strain-so well. The only defeat in his career was in the Futurity last year. This of the fifth on account of sore:

WICHITA.

he said he could not account for it unless it was because the harness horses were not asked to do so much while young and when their bonesand muscles were soft and also probably because the harness horses received by far the better care. He has had experience with both and if he don't know who does?

"A man who knows anything about runners will recall the names of Traverser, Africander, Irish Lad, Dick Welles, The Picket, McChesney, Sidney Lucas, Robert Waddell, Articulate, Highball, Waterboy, Lucien Appleby, English Lad, Bessie Spahr, Endurance by Right, Beldame, Delhi, Savable, Abe Frank and scores of others I might name, if given time to think over the list. All of these made history in the turf world for a while. Then they went wrong and are soon forgotten, Few of them will ever race again. Two or three of them are dead—raced to death. No gamer a race horse ever looked through a bridle than Robert Waddell, but he was raced into the ground, and I understand was finally put to death or derivation of the Leavenworth of their assault on the property of their assault on the second of the Leavenworth of their assault on the second of the Leavenworth of their assault on the second of the Leavenworth of their assault on the second of the Leavenworth of their assault on the second of the Leavenworth of their assault on the second of the Leavenworth of their assault on the second of the Leavenworth of their assault on the second of the Leavenworth of their assault on the second of the Leavenworth of their assault on the second of the leaven with the leaven w was raced into the ground, and I un-derstand was finally put to death on "Pa" Bradley's old Virginia farm, where the gelding was born. HEAVY MEN ARE SCARCE. K. U. Football Material of This Sort Is Not Plentiful.

Is Not Pientiful.

Lawrence, Kan, Sept. 13.—There is a scarcity of heavy football material at K. U. this year, especially in the freshman team, from which much of next year's squad must be selected. When men were considered by Coach Kennedy for line positions it was found that he had very few men of sufficient size and weight from which to choose. Strickler seems to be best adapted to the requirements of a center, having considerable more weight than Milton, who subbed last year in part of one game.

Strickler will be in good shape in another week and more can be told of his ability to brace up the line. Breidenthal and Reed are two, other candidates. Both are heavy, but they lack in brawn and are a little short for the position. The backs and ends will run light this year and will be a fast combination. Pooler, Miller and Hart, if adjusted behind the line, would make the fastest set of backs ever on the 'varsity. All three have good sprinting marks, and it is very probable that this combination will get to advance the ball at least during a part of the season.

Coach Kennedy divided the squad for the first time Tuesday and gave "Shorty" Hamil charge of the freshmen while he piloted the veterans across the field. The freshmen squad cutsumbers the 'varsity bunch 2 to 1 and there will be great combination for positions on the freshmen cannot this season. The 'varsity men were put through some of their paces this afternoon and they will soon be in their old form. None of them have been injured during the summer and for the most part they are in better flesh than last year.

Washington, Four judges of the property of the secretary of the property of th

Shively, president of the Western association, announced last night that he had imposed fines of \$25 and \$15, respectively, on Catcher Armstrong and Outfielder Rapps, of the Leavenworth team, as a result of their assault on Umpire Maley in last Sunday's game with Sedalia at Leavenworth. According to statements of spectators at the game the assault was a most cowardly affair, both of the men striking the timpire repeatedly. President Shively has taken a decided stand in the matter, as he is determined on driving rowdyism out of the game as far as the Western association is concerned.

Owens to Umpire. Owens to Umpire.

Kansas City, Sept. 13.—"Big Brick"
Owens, the Western association umpire who recently joined President
O'Brien's American association staff, has been assigned to Kansas City for the two last series here. Owens was considered one of the best umpires that ever worked on the Western association circuit, and he has made good with A. A. He will be here Thursday for the opening game with St. Faul.

They Played for 16 Innings.

Scranton, Kan., Sept. 12.—The longest game ever seen in Osage county was played here Tuesday between the Scranton and Lyndon teams, the Scranton team winning on a pinch play in the sixteenth inning by the score of 3 to 2. This is the last game that the team plays here this season. They have won 14 out of the 16 games played on the home diamond this year. The feature of yesterday's game was the fielding of both teams.

Scranton0000200000000001-3 3 2 Lyndon0000011000000000-2 5 2 Batteries-Sherrin and Morris; Parrish See the roping of the long horns at 101 Ranch Show, Fair grounds. There is a familiar saying, and a true one, that "Time proves all 40. YEARS

things." When a medicine has stood this test for a period of forty of CURES years, and is then more in popular favor than ever, there is no doubt as to its merits. This is the standard by which S. S. S. has been measured, and its record of forty years of cures fully justifies its popularity as a blood medicine. For nearly half a century this great remedy has been used in the treatment of blood and skin diseases of every character, and so satisfactory have been the results that it is now the best known and most widely used blood medicine in the world. The success of S. S. is based upon the fact that it has always done everything claimed for it; it has maintained the confidence of the people because it deserved it. The constantly increasing demand for S. S. S. is the result of the good words spoken of it by those who have been cured of disease by its use, and, therefore, know from experience that it is the greatest of all blood purifiers. ITS FORTY YEARS OF EXIST-ENCE HAVE BEEN FORTY YEARS OF CURES. For Rheumatism, Catarrh, Scrofula, Chronic Sores and Ulcers, Skin Diseases, Contagious Blood Poison, and all other diseases

Some ten years ago I used your S. S. S. with the most satisfactory results. From childhood up I had been bothered with bad blood, characterized by skin eruptions and boils, especially bad in the summer. For five or six summers I had boils ranging from five to twenty in number each season. Our local physicians prescribed for me, but nothing they gave me did away with the annoying skin eruptions or prevented the boils from appearing. The burning accompanying the eruption was terrible, and I had as high as six boils at one time. My condition was truly a pitiable one when I began S. S. S. It seemed to be just the medicine needed in my case. It drove out all impurities and bad blood and restored the circulation to its original strength and purity, giving me permanent relief from the skin eruption and boils. This has been ten years ago and I have never had a return of the disease. I would state also that my husband has taken it with good results. MRS. J. D. ATHERTON. Newark, Ohio.

due to an impure or poisoned condition of the blood, there is nothing that equals S. S. S. It counteracts and drives out the germs and poisons, cleanses the system of all unhealthy matter, cures the disease permanently and restores strong, robust health. Where the blood is weak or anaemic and unable to nourish the body as it should, S. S. S. supplies it with the healthful properties needed, and being a bracing, invigorating tonic it builds up the entire system. It goes to the very bottom of all blood disorders and in this way reaches deep-seated and inherited cases on which the ordinary sarsaparillas and tonics have no effect. S. S. S. is also an ideal old people's remedy, relieving the dis-

eases and discomforts of old age and giving strength and vigor to their declining constitutions. Not only is S. S. S. certain in its results, but it is safe. Being made entirely from roots, herbs and barks of the forests and fields, chosen for their healing, cleansing and building-up properties, it acts gently and pleasantly on the delicate members and tissues of the body. S. S. S. enjoys the distinction of being the only blood remedy on the market that does not contain a mineral ingredient of some kind. If you are in need of a blood remedy do not experiment with unproved medicines, but get S. S. S., the remedy that has the endorsement of millions of people, and one that has proved its worth by its forty years of cures. All sufferers from blood or skin diseases are invited to write to our Medical Department, stating their case, and our physicians will take pleasure in giving the medical advice needed, and will send our books on the different diseases. We make no charge for the advice or THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

Louis federal grand jury. This new indictment under which Senator Burton will be tried charges him with having entered into an agreement to practice before the departments in washington. The old indictment charged him with practicing before the departments.

The government will expect under this new indictment to be permitted to offer all the evidence presented at the first trial and such new evidence as it may be able to produce. It was developed at the first trial that Senator Burton received one cash payment in St. Louis of \$500 as attorney for the Rialto Grain and Securities company. His contract with the Rialto company was for \$2,500, and four payments were made by check on a St. Louis bank and cashed by him in the Riggs National bank of this city. The supreme court held that this constituted a payment in the city of stituted as payment in the city

Convulsion, Fits, then Epilepsy.

Dr. Miles' Restorative Nervine has been so successful in curing these brain-wrecking diseases that there is every reason to believe that even the most hopeless cases can be benefited, if not fully restored.

We will be pleased to refer any one thus afflicted to many who now enjoy the blessing of health, after years of hopeless suffering.

"I have a son that had brain fever when two years old, followed by fits of the worst type, and he was pronounced incurable. I spent hundreds of dollars for him, without relief. After about fitteen years he became so but that we sent him to Longeliff heapital for the insane, at Log-asport, Ind. He was there nearly three years, but he continued to grow worse, so we brought him home July 80, 1902, in an awful condition. He had lost his mind almost entirely. He hardly knew one of the family; could not even find his bed; was a total wreck. He had from 5 to 10 fits a day. We were urged to try Dr. Miles' Nervine, and before the first bottle was used, we could see a change for the better. We have given it to him ever since, and he has had but two very light spells since last August, 1903, and then he was not well other ways. We pronounce him cured, as he can work and go anywhers. If any one wishes to ask any questions concerning this, they are at liberty to do so."

E. H. BUNNELL, Lincoln, Ind.
